

1. ABOUT US

Beijing Bomex Huake Co., Ltd. was originally part of Beijing Glass Instrument Factory (BGIF).

BGIF is the biggest manufacturing base of borosilicate glass in China and also the biggest manufacturer in Asia. It is the pioneer of borosilicate glass study and production in China. It takes the lead in terms of quality, output and technical level in the field of glass industrial apparatus, which reach ISO 3585-1991, ISO 4707-1978 and HG/T 2435-93 standards. It is the only one in China who can produce world level glass complying with US standard-ASTM Class A (E438-83).

"Bomex" glass apparatus are all made of BJTY glass, similar to American PYREX 7740 glass and German DURAN-8830 glass. It is the best material for chemical, pharmaceutical and other relevant industries.

BOMEX® GLASS

China borosilicate glass piping and equipment to the authority of manufacturers

1938

2009

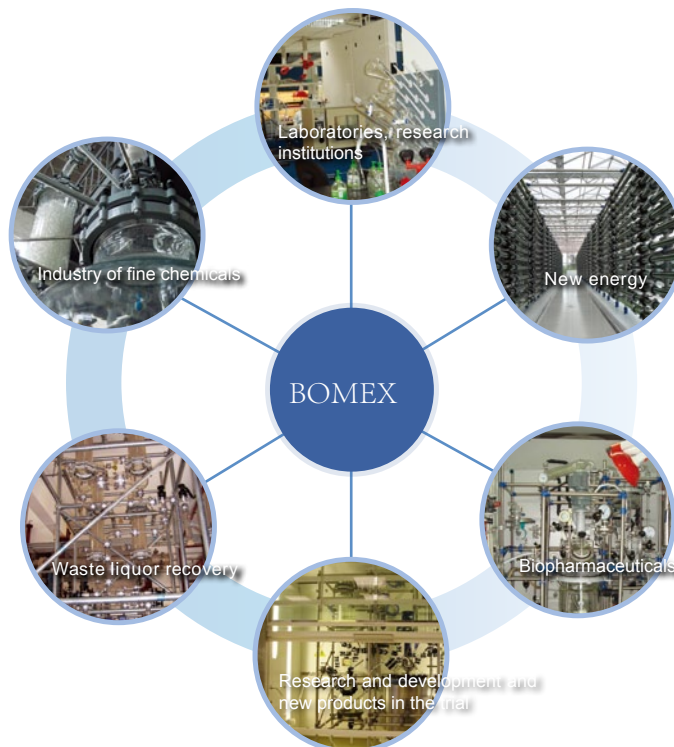

- 1938 The founding of the factory.
- 1958 Equipment and technology transfer from Germany for the set-up of the biggest technical glass factory in Asia.
- 1959 Success in tank melting of hard glass.
- 1971 Successful mass production of down-drawn glass tubes by mechanic method.
- 1980 First introduction of software from abroad for technical self-development and successful introduction of NEG borosilicate glass melting technology from Japan.
- 1984 First successful production line of hard glass tubes in China by electric boosting furnace.
- 1991 Successful development of glass industrial apparatus.
- 1993 Successful drawing of DN315 tubing (Φ315), the largest in China.
- 2003 Moving to a new location, thus the founding of Beijing Bomex Huake Co.Ltd.
- 2008 Manufacture and export of complete sets of glass industrial apparatus using well-developed technology to East Asia, Southeast Asia, Middle East and South America market.
- Mass production of DN400, DN600 columns, the largest glass industrial apparatus in China, with well developed technology.

2009

Beijing Bomex Huake Co.Ltd., with its advanced technology and capacity and the world level glass manufacturing process, can produce the following products made of borosilicate glass 3.3 for scientific experiment, and bio-pharmaceutical and fine chemical industries:

- borosilicate glass 3.3 tubes and rods
- glass pipelines and pipe units
- small test equipment in laboratory
- unit or complete set of borosilicate glass industrial apparatus for:
 - the production of extracting bromine from brine
 - the production of chloroacetic acid
 - the production of spirulina
 - the process of polluted water
 - recycling of phosphatidic acid & hydrochloric acid
 - purifying & recycling of solvents
 - waste gas processing
 - experiment and research development
 - trial production test
 - enrichment of dilute acids
- technical consultancy for design, planning and experiment
- field service for the installation of industrial glass apparatus

BOMEX® GLASS Expert in Glass Apparatus Manufacture in China

Bomex provides full range unit products:

- glass pipeline and pipe systems between DN15 — DN600
- glass valves
- glass feeder 10 L- 200 L
- glass pumps
- glass vessels 5L - 200L
- the building of evaporating feeding tower DN80-DN600
- single glass heat exchanger, 0.3-25mm²
- specialized connective sealing system
- supporting structure for assemblies of apparatus

We also provide:

- technical consultancy for planning, designing, selecting and performing experiment.
- complete equipment for typical trial production test/teaching apparatus
- technical service and site installation service for glass industrial apparatus

Trade mark

Registered trade mark of Beijing Bomex Huake Co., Ltd.

Beijing Bomex Huake Co., Ltd. owns the right of the trade mark

China's first brand symbol of quality

Solemn Declaration

We have never authorized anyone to use our above trade marks. Any act of using our trade marks shall be regarded as serious violation of trade mark right. We will resort to legal procedure against any violation according to The Trade Mark Law of the People's Republic of China.

All products of our company bear the trade mark . Products bearing any similarly looking trade mark shall be regarded as fakes.

We advise consumers to purchase our products directly through us or through the authorized dealers to avoid deception, which may lead to serious losses even to human lives.

Quality Guarantee

- ▶ BOMEX gain Europe quality award
- ▶ BOMEX gain Beijing name brand
- ▶ BOMEX gain the golden medal in national quality competition

- ▶ 2000, ISO9000 Certificate

- ▶ 2004, ISO9001:2000 Certificate

- ▶ 2004, ISO9001:2000 Certificate

- All BOMEX products are produced according to ISO90001 standard.
